

BIS is offering a Delinquent Tax Payment Solution that provides a convenient way to accept delinquent tax payments online. The Delinquent Tax Payment Solution, provides quick reconciliation by printing checks for tax payments that are available for same day deposit. This solution also ensures the previous years delinquent tax bills are paid first.

How It Works?

Tax payers will be able to easily locate delinquent tax bills by using one of the multiple search parameters, such as, name, address, receipt and year. Once tax payments are submitted on the delinquent tax website, the payments will reflect immediately. This will allow you to easily print checks for all payments received.
